AMAR HI-TECH ENGINEERING INDUSTRIES PVT. LTD.

WARNING

READ THESE INSTRUCTIONS AND WARNINGS CAREFULLY. BE SURE YOU UNDERSTAND THESE INSTRUCTIONS AND WARNINGS BEFORE USING THIS FIREARM. FIREARMS CAN BE DANGEROUS AND CAN POTENTIALLY CAUSE SERIOUS INJURY, DAMAGE TO PROPERTY OR DEATH, IF HANDLED IMPROPERLY.

IMPORTANT:

Before it left the factory this firearm was tested, carefully inspected and packaged. AMAR HI-TECH ENGINEERING INDUSTRIES PVT. LTD. cannot control product handling after it leaves the factory. Therefore, please examine this firearm carefully at the time of purchase to ensure that it is unloaded and undamaged. The dealer will be pleased to assist you in making this examination and will endeavour to answer any question you may have. This instruction manual should always accompany this firearm. When you lend, give or sell this firearm, be sure this manual goes with it.

MESSAGE FROM CEO DESK

AMAR NATH BHARGAV
CEO

AMAR HI-TECH
ENGINEERING INDUSTRIES PVT. LTD.

Dear Valued Customer,

As the CEO of our firearms manufacturing company, I would like to take this opportunity to thank you for choosing our product. Our team has put in a tremendous amount of hard work and efficiency in the production of the firearms that you have purchased, and we are proud to have delivered you a product of the highest quality.

We take great pride in our commitment to excellence, and our goal is to provide you with peace of mind and confidence in your purchase. Our team adheres to the highest standards of safety and quality, ensuring that every single firearm is thoroughly tested and inspected prior to leaving our facility.

We also understand that your satisfaction with our product does not end with the purchase. Our commitment to you goes beyond the initial sale, and we are dedicated to providing you with exceptional customer service and support throughout the lifetime of your firearm. If you ever have any questions or concerns about your product, please don't hesitate to contact us, and we will do everything in our power to resolve any issue as quickly and efficiently as possible. You can contact me directly on my e-mail id in case of any suggestions, feedback or issues and I will try be level best to reply you positively in time.

Once again, we would like to express our sincere gratitude for choosing our firearms, and we hope that you enjoy many years of safe, reliable, and enjoyable use with your new firearm.

Sincerely,

AMAR NATH BHARGAV

CEO OF (AMAR HI-TECH ENGINEERING INDUSTRIES PVT. LTD.)

INTRODUCTION TO STALLION REVOLVER

We are thrilled to introduce the latest addition to our esteemed lineup of firearms, the Stallion Model Classic. Crafted with precision and designed for excellence, this 0.32 Caliber S&W long revolver embodies the perfect balance of power, performance, and elegance. Marketed under the brand name Stallion, this revolver is set to make its mark as a timeless classic.

Amar Hi-tech Engineering Industries Private Limited takes immense pride in presenting the Stallion Model Classic as a testament to our unwavering commitment to excellence in firearms manufacturing. Combining decades of expertise with cutting-edge technology, we have created a revolver that exemplifies precision engineering and unrivaled performance. The Stallion Model Classic is meticulously designed to deliver exceptional accuracy, reliability, and durability. Each component of this revolver has been carefully crafted and assembled to ensure flawless functionality and a smooth shooting experience. The 6-round capacity allows for ample firepower, while the 7.65 caliber provides optimal balance between power and control.

With its sleek and timeless design, the Stallion Model Classic exudes sophistication. The black chrome finish adds a touch of elegance, making it a true masterpiece that captures attention both on and off the shooting range. Its compact size, with an overall length of 6.7 inches and a width of 1.3 inches, offers enhanced maneuverability and ease of handling. The Stallion Model Classic features both double and single action, allowing shooters to choose their preferred shooting style. The meticulously engineered trigger pull, whether in single or double action, ensures a crisp and consistent response, enhancing accuracy and control with every shot.

At Amar Hi-tech Engineering Industries Private Limited, we prioritize the safety and satisfaction of our customers. The Stallion Model Classic undergoes rigorous testing and adheres to strict quality control measures to meet the highest industry standards. Our commitment to excellence extends beyond manufacturing, as we provide comprehensive support and assistance to ensure that every owner of the Stallion Model Classic has a fulfilling shooting experience.

We invite you to experience the exceptional craftsmanship and performance of the Stallion Model Classic. With its precise engineering, striking design, and unparalleled reliability, this revolver represents the pinnacle of firearms manufacturing. Join us on this extraordinary journey as we continue to push boundaries, uphold our legacy of excellence, and shape the future of the firearms industry.

For further information, product inquiries, or to explore our complete range of firearms, please visit our website or contact our dedicated customer service team at Amar Hi-tech Engineering Industries Private Limited.

HISTORY AND COMPANY PROFILE

HISTORY

Amar Hi-tech Engineering Industries Private Limited is a firearms manufacturing company based in India. The company was established in the year 2016 and is a part of the AVBHARGAV Group of Companies which has a strong foot in the Arms Industry since 1958. The company is licensed by the Ministry of Home Affairs, New Delhi, to manufacture firearms of different calibers both for Civil as well as defence. The AVBHARGAV Group of Companies was founded by Late Sh. Dogar Nath Bhargav in the year 1958 . Late Sh. Dogar Nath Bhargav hailed from Pallandri, which is now a part of Pakistan Occupied Kashmir, he later came to Jammu as a refugee and started working as an apprentice in a small gun manufacturing company in the year 1952. After gaining experience in the industry, he founded Bhargav Arms Company in the year 1958 and started manufacturing single-barrel shotguns. Bhargav Arms Company has since grown to become a leading manufacturer of shotguns in India. In the year 1972, Sh. Amar Nath Bhargav, the eldest son of Late Sh. Dogar Nath Bhargav, joined the family business and diversified the arms business to arms wholesale and retail. Under his leadership, the AVBHARGAV Group emerged as one of the leading business groups in the Weapon Industry in India. Today, the AVBHARGAV Group manufactures all kinds of Shotguns, including Pump Action, Semi-Automatic, Handguns (Revolvers/Pistols) and other products through its 3 manufacturing plants located at Jammu (J&K) and Kandrori (HP).

COMPANY PROFILE

Amar Hi-Tech Engineering Industries Private Limited, a part of the AVBHARGAV Group, is a reputable firearms manufacturing company based in Kandrori, Himachal Pradesh, India. With a rich heritage spanning over 65 years in the industry, we have established ourselves as a leading manufacturer of Shotguns and Handguns (Revolvers / Pistols). Our commitment to innovation, superior quality and customer satisfaction sets us apart in the market.

PRODUCT RANGE:

At Amar Hi-Tech, we take pride in our diverse range of firearms, designed and manufactured to the highest standards. Our product lineup includes:

1. **Shotguns:** We specialize in producing high-quality shotguns suitable for various applications, including sport shooting and self-defence. Our shotguns are known for their reliability, accuracy and ergonomic designs.

COMPANY PROFILE

2. **Handguns:** Our range of handguns combines precision engineering with advanced features, providing exceptional performance and user-friendly operation. From compact handguns to full-size models, we offer a comprehensive selection to meet different preferences and requirements.

Research and Development (R&D) Facility: Amar Hi-Tech is dedicated to continuous innovation and product development. Our state-of-the-art R&D facility is equipped with advanced technologies and staffed by a team of experienced engineers and designers. Through extensive research and rigorous testing, we constantly strive to enhance the performance, reliability, and safety features of our firearms. This commitment to innovation ensures that our customers receive cutting-edge products that exceed their expectations.

Infrastructure: Our manufacturing plants in Kandrori, Himachal Pradesh, boast modern infrastructure and adhere to stringent quality control measures. Our facilities are equipped with advanced machinery and production lines, enabling us to meet the growing demands of the market while maintaining superior quality standards. We follow industry best practices and strict compliance with safety regulations to ensure the highest level of precision, craftsmanship, and reliability in every firearm we produce.

Amar Hi-Tech Engineering Industries Private Limited, backed by the AVBHARGAV Group's extensive experience, is a trusted name in the firearms industry. Our commitment to excellence, customer satisfaction, and continuous improvement is reflected in our diverse product range, cutting-edge R&D facility, and advanced manufacturing infrastructure. We are dedicated to providing firearms that meet the highest standards of performance, reliability, and safety. Whether you are a professional shooter, an enthusiast, or a security-conscious individual, our firearms are designed to deliver an exceptional shooting experience.

WHAT WE DO

At Amar Hi-Tech Engineering Industries Private Limited, we are committed to delivering exceptional firearms solutions with a focus on precision manufacturing, superior craftsmanship, and customer satisfaction. Here is an overview of our core services:

1. Weapon Manufacturing: We specialise in the manufacturing of high-quality weapons. Our skilled team of craftsmen and engineers work diligently to produce firearms that meet the highest industry standards. From design to production, we employ advanced manufacturing techniques, state-of-the-art machinery, and stringent quality control measures to ensure the utmost precision, reliability, and performance in every weapon we create.

2. Research and Development: Innovation is at the forefront of our operations. Our dedicated research and development team continually explores new technologies, materials, and manufacturing processes to enhance our rifle offerings. Through rigorous testing and continuous improvement, we strive to incorporate the latest advancements in firearm design and functionality, ensuring our customers have access to cutting-edge products.

3. Compliance and Safety: As a responsible firearms manufacturer, we prioritise compliance with all relevant laws, regulations, and safety standards. We adhere to strict protocols throughout our manufacturing processes to ensure the safety and reliability of our weapons. Our commitment to compliance extends to educating our customers on responsible firearm ownership, safe handling practices, and proper storage and transportation guidelines.

4. Quality Assurance: We have implemented robust quality assurance measures to guarantee the highest level of craftsmanship and performance in our weapons. Every firearm undergoes rigorous testing, including accuracy, functionality, and reliability assessments, to ensure it meets our stringent quality standards. By adhering to these rigorous testing protocols, we instill confidence in our customers that each weapon they purchase from us is of exceptional quality.

5. Customer Support: We value our customers and strive to provide outstanding support throughout their firearms ownership experience. Our dedicated customer support team is readily available to address inquiries, offer technical assistance, and provide guidance on our products. We believe in building long-term relationships with our customers by delivering prompt, reliable, and personalised customer service.

Amar Hi-Tech Engineering Industries Private Limited is dedicated to manufacturing superior weapons and providing a positive customer experience. With our expertise in precision manufacturing, ongoing research and development efforts, stringent compliance with safety regulations, rigorous quality assurance measures, and a strong commitment to customer support, we aim to be the trusted provider of high-quality firearms. We are passionate about delivering reliable, accurate, and performance-driven Hand Guns (Revolver/Pistols) that meet the needs of shooters, hunters, and firearm enthusiasts.

ABOUT THE GROUP, MISSION & VISION

About the AVBHARGAV Group: The AVBHARGAV Group of Companies was founded in 1958 by Late Sh. Dogar Nath Bhargav as Bhargav Arms Company. Over the years, the group has grown to become a diversified conglomerate with interests in several industries, including construction, logistic and manufacturing with Firearms Manufacturing as its core line of business.

The AVBHARGAV Group's manufacturing division includes several companies, including Amar Hi-tech Engineering Industries Private Limited where they manufacture Firearms of World standard. In the weapon Industry the Group covers all the 3 aspects of the Industry i.e Manufacturing , Wholesale / retail and have many company owned Arms Shops in the State of Jammu and Kashmir to sell their weapons. Apart from this they have a huge distribution network all over India to make their product available at every corner of the Country. The group's manufacturing companies are committed to producing high-quality products using the latest technology machines and equipment, and are focused on meeting the needs of customers in India and around the World. The group's other divisions are similarly focused on delivering quality and innovation in their respective industries. The AVBHARGAV Group is committed to creating value for its stakeholders through innovation, quality, and excellence.

OUR MISSION

Mission: Our mission is to provide our customers with the highest quality and most reliable defence and civilian weapons in the world. We strive to deliver superior products that meet the needs and exceed the expectations of our customers, while maintaining the highest standards of safety, performance, and quality.

OUR VISION?

Our vision is to be the leading weapon manufacturing company in the World, known for our commitment to excellence in everything we do. We aim to create state-of-the-art weapons that inspire confidence and trust in our customers, while also contributing to the safety and security of our nation and the global community.

We are committed to:

1. Continuously improving our products through innovation, research and development.
2. Providing exceptional customer service and support.
3. Adhering to the highest safety and quality standards in the industry.
4. Maintaining an unwavering commitment to ethics and integrity in everything we do.
5. Contributing to the safety and security of our nation and the global community.
6. Empowering our employees to be the best they can be through training and development.

By fulfilling our mission and living up to our vision, we will continue to be a trusted and respected company in the weapon manufacturing industry, delivering unparalleled value to our customers and making a positive impact on the world around us.

QUALITY POLICY

At our company, we believe that quality is the foundation of our business. We are committed to producing the highest quality Shotguns and Handguns (Revolvers / Pistols) that meet or exceed our customers' expectations.

We will achieve this by:

1. Meeting all applicable regulatory requirements and achieving the highest level of product safety and performance standards.
2. Continually improving our products and processes through ongoing research and development.
3. Maintaining a highly skilled staff, using state-of-the-art technology, and applying the best manufacturing practices to produce products of the highest quality.
4. Providing excellent customer service and support, exceeding our customers' expectations.
5. Establishing and maintaining a culture of quality through training and empowerment of all employees.
6. Ensuring that our suppliers meet our high-quality standards and use only the best materials, parts, and components.
7. Continuously monitoring and measuring our performance to identify areas for improvement and ensure that we meet our quality objectives.

By adhering to the above quality policy, our shotguns and Handguns (Revolver & Pistol) customers can be confident that they will receive a reliable, safe, and high-quality product that meets or exceeds their expectations. We are committed to providing exceptional value and quality to our customers, and it is our pledge to deliver on this quality policy.

GUN SAFETY RULES

OBSERVE THESE RULES OF SAFE GUN HANDLING

1. Always keep the muzzle pointed in a safe direction. Watch the muzzle at all time, never point a gun accidentally or intentionally, at any person or anything you do not intend to shoot. Identify the target before shooting, do not shoot at sounds.
2. Always treat a gun as if it is loaded-it may be!
3. Keep your finger off the trigger while operating the action and at all other times until you are ready to shoot.
4. Keep the safety “on” or in the “safe” position at all times until you are ready to fire. Do not rely on your gun’s safety , safety on any gun is a mechanical device and is not intended as a substitute for common sense or safe gun handling.
5. Learn how your gun functions and handles. If you do not understand the proper use and care of your gun, seek the advice of someone who is knowledgeable.
6. Do not alter or modify any part of the firearm.
7. Store guns unloaded, separate from any ammunition, and out of the reach of children.
8. Be sure the barrel is clear of any obstructions before loading. Make it a habit to check the barrel every time before loading.
9. Be sure you have and use the proper ammunition. A 20 gauge shell will enter a 12 gauge chamber far enough so that a 12 gauge shell can be loaded behind it. Also, a 3 inch shell may fit into a 2 3/4 inch chamber, but the crimp at the mouth of the shell will unfold into the forcing cone. If either of these thing occur and you fire the gun, the gun will explode, damaging the gun and possibly causing serious injury or death to you and those around you.
10. Wear Protective shooting glasses and adequate ear protection when shooting.
11. Never climb or jump over anything, such as a tree fence, or ditch, with a loaded gun open the barrel, remove the shells and hand the gun to someone else or place it on the ground on the other side of the obstacle before crossing it yourself. Do not lean a gun against a tree or other object. It could fall and possibly discharge.
12. Do not shoot at a hard surface or at water. Bullet and shot can ricochet or bounce off and travel in unpredictable directions with great velocity.
13. Never transport a loaded gun. Do not place a loaded gun into a vehicle. The gun Should be unloaded and placed into a case when not in use.
14. Never drink alcoholic beverages before or during shooting.

LOADING & UNLOADING INSTRUCTIONS

LOADING INSTRUCTIONS:-

1. Start by ensuring that the firearm is pointed in a safe direction, with the muzzle pointed away from yourself and others.
2. Open the cylinder by pushing the cylinder release latch, which is typically located on the left side of the frame, forward or to the side.
3. Visually inspect each chamber of the cylinder to ensure it is empty and free from any obstructions or debris.
4. Select the appropriate ammunition for your revolver. In this case, you'll need 0.32 S&W Long ammunition.
5. With the muzzle still pointing in a safe direction, carefully insert each round into the corresponding chamber of the cylinder. Push the round in until it is fully seated.
6. Rotate the cylinder, if necessary, to load each chamber with a round until all the chambers are filled.
7. Once the cylinder is fully loaded, firmly close it by pushing it back into the frame until it locks securely. Ensure that the cylinder is properly aligned with the barrel.

UNLOADING INSTRUCTIONS:-

1. Again, ensure that the muzzle is pointing in a safe direction.
2. Open the cylinder by pushing the cylinder release latch forward or to the side.
3. Point the revolver downward to allow any live rounds to fall freely out of the cylinder.
4. Gravity should assist in emptying the chambers.
5. Visually and physically inspect each chamber to verify that no live rounds or obstructions remain.

UNLOADING

6. If any rounds are left in the cylinder, you may use the ejector rod located beneath the barrel to push them out one at a time.
7. Push the ejector rod firmly and completely to expel the rounds from the chambers.
8. Once all the rounds are removed and the chambers are empty, visually inspect the cylinder and barrel to confirm that they are clear.

1. Close the cylinder, ensuring it locks securely, and continue to handle the firearm safely.
2. Remember, safety is of the utmost importance when handling firearms.
3. Always treat every firearm as if it were loaded, even if you believe it to be unloaded.
4. If you are unfamiliar with firearms or have any doubts about the process, it is strongly recommended that you seek professional instruction or guidance from a certified firearms instructor or expert.

As with the previous instructions, I must reiterate that handling firearms requires strict adherence to safety protocols. It is essential to prioritize safety and ensure that you are familiar with and follow all applicable local laws and regulations regarding firearms.

The following firing instructions are provided for informational purposes only and they should not substitute proper training and hands-on guidance from a certified firearms instructor.

FIRING INSTRUCTIONS

FIRING INSTRUCTIONS:-

Here are some refinements to your firing instructions:

1. Always ensure that the revolver is unloaded and pointed in a safe direction before handling it.
2. Load the ammunition as per the loading instruction mentioned at Page number 10.
3. Engage the safety switch before handling the revolver and keep it engaged until you are ready to fire.
4. Firmly grip the revolver with both hands, ensuring that your fingers are not near the trigger.
5. Aim the Revolver at your intended target.
6. To fire the revolver, press the safety switch from the up to down to turn it off.
7. Squeeze the trigger to fire the revolver.
8. After firing, immediately engage the safety switch and eject the shell by pressing the extractor rod.
9. If you do not wish to fire more rounds and your chamber is loaded with a new cartridge after firing, follow the unloading instructions to unload your weapon.

WARNING:-

1. Always wear appropriate eye and ear protection when shooting the revolver.
2. Never point the revolver at anything you do not intend to shoot. Always be aware of your surroundings and ensure that there are no people or animals in the vicinity before firing.

SAFETY INSTRUCTIONS

SAFETY ON:-

1. Before engaging the safety, ensure that the revolver is unloaded and the chamber is empty. Follow all safety precautions and guidelines provided in the official safety and instruction manual.
2. Locate the safety lever on the weapon. It is positioned behind the hammer.
3. To engage the safety, push the safety lever forward until it locks into place. This will indicate that the safety is "on" and engaged.
4. Once the safety is engaged, the revolver's trigger and hammer will be effectively locked, preventing accidental discharge.

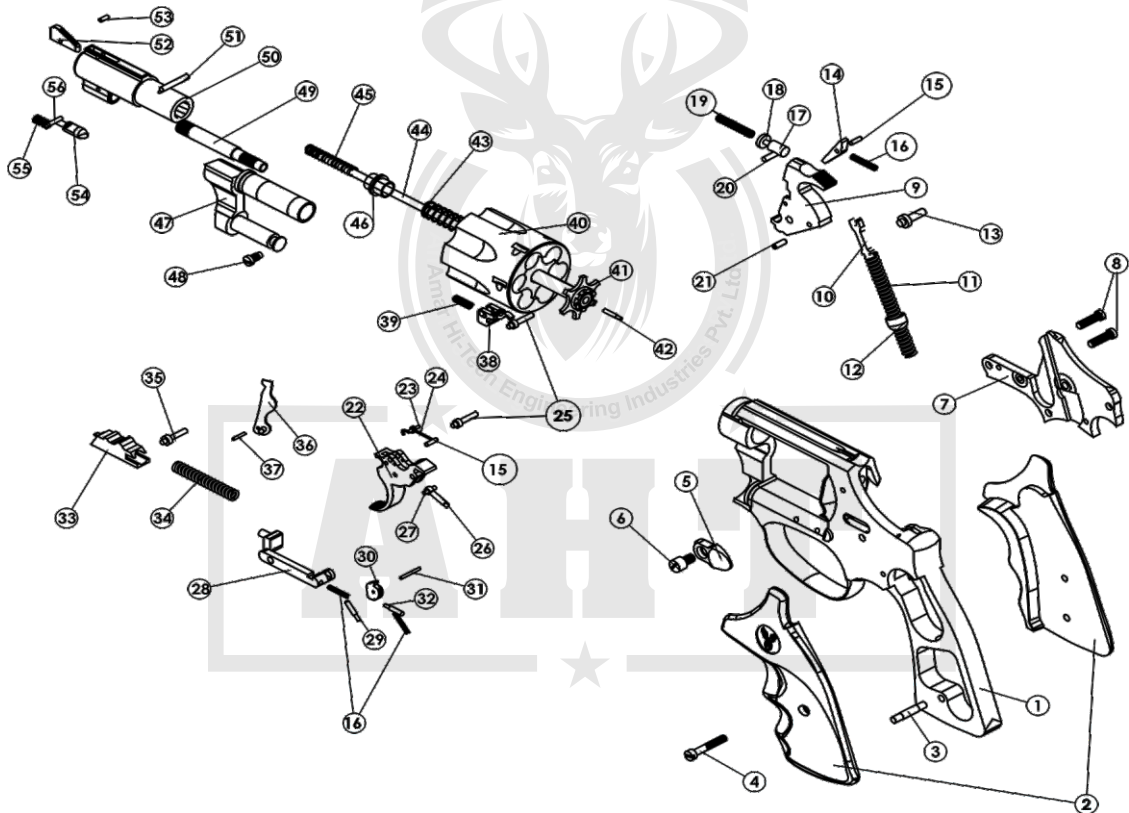

SAFETY OFF:-

1. Before disengaging the safety, ensure that you have a clear understanding of your target and the surrounding environment, and that it is safe to proceed.
2. Ensure that your finger is off the trigger and away from the trigger guard.
3. Locate the safety lever on the weapon, which is positioned behind the hammer.
4. To disengage the safety and ready the revolver for use, firmly push the safety lever backward until it releases from its locked position.
5. Confirm that the safety is fully disengaged and the lever has returned to its original position.
6. With the safety off, the revolver is now ready to fire when the trigger is pulled and the hammer is manually cocked.

Note: It is crucial to familiarize yourself with the safety mechanism and practice safe handling and operation of the Stallion 0.32 Caliber Revolver S&W Long. Always follow the safety guidelines and procedures outlined in the official safety and instruction manual provided by Amar Hi-Tech Engineering Industries Private Limited. If you have any questions or concerns about the safety operation of your firearm, please contact our customer support team or consult a qualified firearms instructor for assistance.

CLEANING AND MAINTENANCE GUIDE FOR STALLION 0.32 REVOLVER S&W LONG

FRAME AND SLIDE

Wipe down the frame and slide with a soft, lint-free cloth to remove any dirt, debris, or excess oil. Use cotton swabs dipped in cleaning solvent to clean hard-to-reach areas and remove fouling or buildup.

CYLINDER AND EJECTOR ASSEMBLY

Open the cylinder and remove it from the frame.

Inspect the cylinder for fouling, residue, or debris.

Clean the cylinder chambers, cylinder face, and the ejector assembly using a nylon or brass brush and cleaning solvent.

Wipe the cylinder and ejector assembly with a clean cloth.

TRIGGER ASSEMBLY AND INTERNAL PARTS

If necessary, consult the user manual or seek professional assistance for detailed disassembly and cleaning of the trigger assembly and internal parts.

Use cleaning solvent and appropriate brushes to remove fouling and residue.

Ensure all parts are thoroughly dried before reassembly.

MAINTENANCE & SERVICE AGREEMENT

MAINTENANCE

1. Regularly inspect the revolver for signs of wear, damage, or malfunction.
2. Keep the revolver clean and dry, and store it in a safe, secure location.
3. Check the revolver screws, bolts, and other fasteners periodically to ensure they are tight and secure.
4. Replace any worn or damaged parts as soon as possible.
5. After extended periods of heavy use, your gun should be taken to a qualified gunsmith to have the action disassembled for professional cleaning and lubrication.
6. Care for your wood stock and forearm the same way you would a piece of furniture with the same finish.

SERVICE AGREEMENT AND LIMITED WARRANTY
